Work Experience

Cloud Application Consultant

Nov 2021 - Present

[OpenText](#) | Bengaluru, KA

- Worked on OTDS integration and automation to enhance JWT role-based security, ensuring seamless access control and robust authentication.
- Worked on enhancing the client's pre-existing validation and checks by implementing the Chain of Responsibility design pattern.
- Tech Stack - Java, Spring boot, Hibernate ORM, Performance, Security

Software Engineer

Oct 2020 - Oct 2021

[Test Yantra](#) | Bengaluru, KA

- Worked on streamline communication between microservices and external systems, utilizing Resilience4j to enhance fault tolerance and resilience. Configured circuit breakers, rate limiters, and retry mechanisms, which optimized data exchange and reduced response times.
- Worked on enhancement of document lifecycle management by troubleshooting and fixing issues related to lifecycle state transitions, ensuring smooth workflow automation.
- Worked on features for sending, retrieving, and organizing emails, leveraging Microsoft Graph API endpoints to enhance email functionality within applications.
- Tech Stack - Java, Spring boot, Microsoft Graph, Oracle

Core Skills

Java, Spring boot, PostgreSQL, Oracle, Microsoft Graph, REST

Education

Asansol Engineering College

Aug 2015 - Jul 2019

Bachelor of Technology Computer Science and Engineering
GPA 6.74

Certificates

Spring boot Masterclass

Jun 2024

Udemy
